Getting ready for Grade 1

During the second term of the school year primary schools in Windhoek enrol children for Grade 1. At Wake up! a formal Learning Readiness Assessment was done this term of 22 of our learners who will leave us for primary school, to assess their progress and identify areas to work on.

busy with language

It is clear that the longer children have stayed with us in pre-primary, the better they are prepared for the next phase. Although we do take in children who only have one year left before going into Grade 1, to get them ready for an English medium school in one year is for most of them not a realistic goal.

From the Editor

Dear Readers,

The winter is gone!

Although we get lots of sunshine, winter days start dark and cold and increasingly children suffer from colds and flu. Now it is term holiday and spring is in the air! Next week we'll start the third and last term of the year.

This newsletter shares some of the highlights of last term. Enjoy!

Fun Day July 26

A successful Fun Day was held on the 26th of July, attended by most of our families. It started off as the coldest day of the year, but the games, the jumping castle and good food warmed everybody up. Parents contributed in kind or cash and bought tickets for the braai, thus raising an amount of N\$4594.35!!! for the centre to buy new materials for the classrooms.

Watch-us-Work Day in June

Toddlers showing their mums what they are up to in the classroom.
